Soil Conservation Service, U.S. Department of Agriculture.

Develop and complete the Soil Conservation Experiment Station near La Crosse, La Crosse Co. Work to include incidental construction and repair of roads and fences, clearing and preparation of land to be used for experimental purposes and the installation of experimental equipment. Work to be performed on land owned by the State and turned over to the U.S.Dept. of Agriculture under an agreement dated Jan. 6, 1932, and renewable annually. This agreement permits the Soil Conservation Service of the Dept. of Agriculture to enter on the land, install experimental equipment and exercise complete control during the period of the agreement. Permission of the proper Federal authority has been obtained. It is certified that the funds provided are sufficient for the completion of the project.
This continues C.P.No.01-45.

Description:

General conservation. Work includes constructing cottage, raceway shelter, transplant nursery, cold storage house, nursery storage shed, pump house, ice house, hatchery, log bridge, telephone lines, truck trails, off take ditches, fire breaks and water holes; improve lakes and streams; improve timber stand; planting trees; fire hazard reduction.

Sponsor: Wisconsin Conservation Commission

Reason for Disapproval: (1) Only approximately 10.9 per cent of the total Federal funds and 10.6 per cent of the total sponsor's funds authorized for superseded project have been expended. Therefore, the unexpended balance of funds is sufficient to continue the operation of the project for a considerable period. (2) Enlargement & operation of a work camp is not justified.
